Coronavirus COVID 19

WHAT IS IT?

Coronavirus is a new type of FLU.

FLU can make you feel unwell - doctors and nurses will make you feel better again.

Coronavirus is sometimes called COVID 19.

WHAT I WILL DO:

I will wash my hands to keep safe from the Coronavirus.

I will wash my hands before I eat.

I will wash my hands after I go use the toilet.

I will wash my hands after I sneeze and cough.

I will try my best to be safe by washing my hands to make them nice and clean.

Coronavirus can make people feel unwell.

I will not put my hands in my mouth.

I will cover my mouth when I cough or sneeze.

**If I feel unwell I tell an adult. They might take my
temperature with a thermometer. This is okay.**

I may need to see a doctor or nurse if I feel unwell.

SCHOOL WILL BE CLOSED FOR A LITTLE WHILE.

An adult will tell me when we can go to school again.

I will be safe and happy at home. My adult will give me some school work to do at home.

I will not be able to visit my favourite places for a little while. Once coronavirus is gone I can go again.

I can ask an adult to call our friends and family using a phone if I miss them.

**I don't need to feel worried, but I will tell an adult if
I do feel worried.**

Coronavirus will go away soon.

I will do everything I can to stay safe.

FOR PARENTS AND GUARDIANS

**THIS IS NOT A
DIAGNOSTIC TOOL.**

**It is a social story brought
to you by ABA Horizons,
that can be used to
explain the pandemic to
your learner.**
