### METHOD

1. Add equal parts glue and shaving cream to your mixing bowl.
2. Add a few drops of food colouring and mix really well, add more food colouring until you've achieved the desired colour.
3. This is where the sandwich bag comes in and it's optional - at this point you can transfer the puff paint into the bag and (carefully, with adult supervision and/or help) snip off a small corner and use as a piping bag. Alternatively you could use a paint brush, or your fingers!
